

CHRIS MAHONEY: Your connection to a better healthcare experience starts here. I'm Chris Mahoney from your Duke Energy Benefits team. To help you build a healthy foundation, your Duke Energy Health and Wellness benefits give you and your family access to a broad range of exceptional programs and resources through UnitedHealthcare. Our employees are highly diverse in the work that they perform every day. And that's why we must meet that diversity with more than just our primary medical plan options. We offer things like 24/7 virtual care to fit your schedule, specialized chronic care management for conditions like cancer and diabetes, fertility solutions, maternity support, and family building, weight loss and management, mental health resources, plus you and your family can be rewarded for taking healthy actions through the Duke Energy Wellpower Rewards Program. These are just some of the programs and resources available through your UnitedHealthcare benefits, all designed to support our diverse workforce. And we are with you in the moments that matter most. Need help understanding your benefits, or just don't know where to start? The My Health Connect team of benefit advocates and registered nurses from UnitedHealthcare is committed to serving you and your family. As dedicated Duke Energy Medical Plan experts, they can help you understand your benefits, help you find a network provider, discuss treatment options, connect with resources and programs, or help with claims questions. Log on to [myUHC.com](https://myUHC.com) or download the MyUHC app to stay on top of all your plan has to offer. At Duke Energy, our mission is to power the lives of our customers and the vitality of our communities. And that mission begins with you. That's why the well-being of you and your family is our top priority. So welcome to a better, more connected health care experience. Your journey starts here.
